

COQUITLAM PRIVATE RESIDENCE

PLATINUM MILLWORK INC.
DIVNO HOMES & DEVELOPMENTS

SCOPE OF WORK

Platinum Millwork assisted in the final design of this residence and provided custom cabinetry for both the main and wok kitchens. The scope also included built-ins for the great room and den, bathroom vanities, mudroom and laundry, wine room and bar.

START TO FINISH

This project took just over five months, from shop drawings to sample submittal in January 2017 and final installation in early June 2017.

CHALLENGES

The most challenging part of this project was the design, layout and installation of the hidden door between the main kitchen and the wok kitchen. It was very detailed work and had to line up perfectly on either side of the wall.

INTERESTING MATERIALS

Although the materials for the project were pretty typical, the rustic oak we were asked to source added a beautiful touch to the kitchen island, bar and wine room.
